

# **TIBETAN PERSONALITY TEST**

[Source Unknown]

This personality test has been floating around the Internet for a while. The key is to answer the questions as they come along. You will find the results very informative.

Take your time with this test and you will be amazed. It is told that someone who took this test last year made a spiritual wish, which did happen. In fact, all year long. The Dalai Lama suggests you read it to see if it works for you.

The test is only four questions, and the answers will surprise you. Be honest and do not cheat by looking up the answers. The mind is like a parachute, it works best when opened.

This is fun to do, but you have to follow the instructions very closely. Do not cheat.

## **Instructions:**

**MAKE A WISH BEFORE BEGINNING THE TEST!**

A warning! Answer the questions as you go along. There are only four questions and if you see them all before finishing, you will not have honest results.

Go down slowly, and complete each exercise as you scroll down.

Do not look ahead.

Get pencil and paper to write your answers as you go along. You will need this at the end.

This is an honest questionnaire, which will tell you a lot about your true self. Give an answer for each item. The first thing that comes to mind is usually your best answer. Remember – no one sees this but you.
